

Material List for The Sharing TREE

The Sharing Tree is a reusable resource center where donated new and gently used items are available to teachers free of charge. Every day, households and businesses throw away countless items that still have educational value to them. These materials now have the opportunity to be transformed into instructional aids, student projects and even works of art.

If your organization or company generates scrap, discards, or overruns that are destined for the landfill, then The Sharing Tree has an idea for you! By donating your discards or scraps to our program, your material donation can reach thousands of Leon County teachers who can use the store for FREE classroom materials.

Besides supporting The Sharing Tree and Leon County education, your material donation may also be tax-deductible.

If you are interested in donating to the organization, please contact Carly Sinnadurai at thesharingtree@leonschools.net. Materials can be dropped off at any Goodwill location in Tallahassee.

One person's trash might be a classroom treasure!!

Almost any kind of non-toxic,
